SART member agencies have chosen to work together to provide services to sexual assault survivors in our community.

Our goal is to help survivors get information, needed support, and community resources.

Sexual assault does not discriminate. We encourage ALL survivors to access our agencies. We can help from the first contact, and each step along the way.

Call us if you or anyone you know needs our services!

## Did you know?

Morrow County SART is proud to use a survivor-centered approach, where the survivor's well being and wishes are put first whenever possible.

This has been shown to encourage more survivors to report, seek valuable resources, and be better witnesses in the process. This helps lead to more successful convictions and lessens the possibilities of re-victimization by the system.
