

When to Stay Home

If you're feeling under the weather,
use these guidelines to determine
when to stay home

- I have a fever (100.4°F or higher)
- I am vomiting
- I have diarrhea
(3 or more loose stools in a 24-hour period)
- I have a rash/open wound that can't be covered
- I have a contagious illness

You're ready to go back to work if...

See your healthcare provider for testing, diagnosis, and treatment.
*Some illnesses may require longer exclusion from school than stated below.

- Fever-free for 24 hours without the use of fever-reducing medication**
- No vomiting for 24 hours**
- Diarrhea-free for 24 hours**
- Until rash has cleared or until all puss-filled blisters have crusted over**
- Cleared by a medical provider to return to work**
